## INSTITUTE ENDED.

(Continued From First Page.)

all.

Reports of Committees were now called for and embodied resolutions of thanks to all who had in any way contributed to the success of the institute of 1908, and of sympathy to the family of Stanley Lucas who had been called away by death.

Dean Minnich, who also wished to leave by a certain car, talked briefly on the "Duties of Citizenship" and urged that largeness of view which would make one not a citizen of his own county or state only, but of the world. Showed the necessity for, and utility of such citizenship since modern advancements in modes, speed of travel brought the remote parts of the earth into nearness. In fit and touching words he voiced his interest in and for all in any way connected with Highland county where ten of his happiest years had been spent in her "Hill City" and assured us that the "helping hand" was extended to aid all the teachers. The best part of his talk was the evidence that his words were not perfunctory statements given as a pleasant closing to his week's work but that they were sincere and given out to the people among which he had lived, because he felt just so.

Pres Yochum then called Miss Louanna Strain to the piano and with light and musical touch she brought out as sweet tones as has been heard at any time during the week, an enthusiastic encore brought a response that made all feel that the H. C. T. I. had never closed its meetings with such sweet music in its ears.

Pres Yochum now declared the 1908 H. C. T. I. session closed and soon the teachers had dispersed all the better for the excellent work of Dean Minnich and Dr. Hulley.
